

BANKER MUNDAY GETS FIVE YEARS

JURY FINDS HIM GUILTY ON SEVENTH BALLOT IN SIX HOURS.

ATTORNEY HOYNE SATISFIED

Counsel for Defense Says Verdict is Full of Holes and Hopes to Win Out in the Supreme Court.

Morris, Ill.—Charles B. Munday, vice president of the La Salle Street Trust and Savings Bank of Chicago, of which William Lorimer was president, was found guilty of conspiring to wreck the institution, and his punishment fixed by a jury at five years' imprisonment.

The jury was out six hours and took five ballots. They disagreed on the penalty, nine standing at first for the maximum.

Foreman Bermeister said: "We all agreed on the first ballot that the verdict should be guilty. Eight of us wanted the maximum punishment, imprisonment for five years and a fine of \$2,000. One of the jurors suggested that it would be better to leave the \$2,000 for the depositors who lost their money in the failure." "This verdict is full of holes," Attorney John M. Hogan, counsel for Munday, said. "We will win in the supreme court."

"I will fight the case to the last ditch," was the only comment Munday would make after the jury returned.

The jury's verdict was: "We, the jury, find the defendant, Charles B. Munday, guilty in the form and manner charged in the indictment and fix the penalty at five years' imprisonment in the state penitentiary."

Macley Hoyne, state's attorney of Cook county, who was in the courtroom, said the verdict was satisfactory.

Lorimer and Henry W. Huttig of Muscatine, Ia., will go to trial after the first of next year, Hoyne said.

Fourteen persons were indicted, Lorimer and Munday being the chief of them. The indictments charged them with looting the institution of almost \$2,500,000 and with violation of practically every banking law of the state.

VILLA MEN CLAIM VICTORY

Battle for Hermosillo in Progress—City Said to Be Surrounded by Rebel Forces.

Nogales, Ariz.—The battle for Hermosillo, capital of Sonora, has been in progress for two days, according to advices received by Villa officials at Nogales, Sonora, opposite here.

Carlos Randall, acting Villa governor of Sonora, said that dispatches received by him indicated that Gen. Obregon had been routed near Cananea and 300 Carranza dead left on the battlefield.

Gen. Villa is said to be directing the attack at Hermosillo. The city is reported to be surrounded.

Villa officials were reported to have confiscated copper valued at \$500,000 which arrived at Nogales from the Cananea Consolidated Copper Co.

One elderly woman was shot by soldiers at Nogales in a celebration. A proclamation in which Villa denounced Carranza and the United States has been issued.

Joyriders Get 8 Years in Prison.

Chicago—Agnes McGrath, Sadie Murray, her young woman friend, and three young men who tore through Gary, Ind., with them in a couple of stolen automobiles on Oct. 27, shot up some saloons and were captured after a running fight with the police, were sentenced to eight years in the penitentiary, the maximum punishment.

U. S. CAN USE ANY PATENT

COURT UPHOLDS RIGHT OF GOVERNMENT.

Federal Court Renders Decision in Case of Wireless Equipment for Battleship.

New York.—The arm of the government may be strengthened for naval or military purposes at any time it sees fit and at the expense of any individual or corporation to whom it has granted a patent, according to a ruling made by Federal Judge Charles M. Hough in an injunction and accounting suit brought by the Marconi Wireless Telegraph Co. of America against Emil J. Simon, a radio engineer.

This ruling was based on an equity suit filed by the Marconi company against Simon, who they asked to be enjoined from infringing on their patent in the construction of radio apparatus for the United States under a contract Simon had with the navy department. Judge Hough in his opinion says:

"The navy department has employed Simon to construct radio apparatus without which certain war vessels now approaching completion cannot go into commission. If Simon does not complete the articles for which he has contracted, injury to the military arm of the government will result. No injunction will be issued in any way interfering with the contract now existing between Simon and the United States."

"In time of trouble, at periods when the arm of the government is in need of strengthening, the executive may be left in the exercise of powers perhaps doubtful in law, but temporarily necessary for national safety by the refusal of drastic relief and the remission of private litigants to slower processes of pecuniary recompense."

CANAL CLOSED SIX MONTHS

Employees in Operating Division Being Given Vacations or Transferred to Other Departments.

Panama.—Owing to the tying up of the Panama canal by the recent slide, many employees, mainly in the operating divisions, are being given vacations, which is taken here to indicate that the canal will remain closed for a much longer time than was at first expected. Some employees have been transferred to other divisions.

It is the intention of Major General George W. Goethals, governor general of the canal zone, to force a temporary channel through the slide as quickly as possible and pass through the waterway a few ships which have been waiting since the canal closed, and then again shut off traffic until all danger of slides has been ended.

This probably will not be less than six months, according to the best available estimates.

FLYNN AFTER CONSPIRATORS

William J. Flynn, chief of the United States secret service, has taken personal charge of the hunt for the instigators of the plot to dynamite ships of the allies leaving the United States with arms for the allied armies and which has resulted in the arrest of Robert Fay, Walter Scholz and others in New York. The case is about the most important of the secret service work now and Chief Flynn is in almost daily conference with the government officials in Washington.

PASSPORTS PORTEND PEACE

NEW CONSISTORY AT ROME TO CONSIDER SUBJECT.

Italian Government Permits Austrian and German Cardinals to Come and Go.

Rome, Italy.—Passports to Austrian and German cardinals will be issued by the Italian government, enabling them to attend the consistory at the Vatican in December.

The decision reached by the council of ministers, announced yesterday, was regarded generally as another straw blowing in the direction of possible peace negotiations.

For refusing safe conduct to German members of the Sacred College there was no technical reason. Germany and Italy being nominally on amicable relations, though these have been badly strained by Teutonic submarine activity in the Mediterranean.

Influence of Peace Plan.

But that permission would be granted the Austrians to visit Rome was not expected.

The inference drawn is that the ministers knew of peace plans in the Vatican.

The public has been somewhat uncertain at what value to appraise reports that the pope is about to renounce his claims to temporal power as a means of securing the Italian government's permission to participate in peace negotiations, and that Cardinal Hartmann of Cologne will bring peace suggestions from Germany to the consistory, but the cabinet council's action gives the impression that the ministers attach some weight to them.

ROOSEVELT TO GET COMMAND

Former Mayor of London, Ont., Who Is in Charge of Organization, Wires Offer to Colonel.

London, England.—Former President Theodore Roosevelt has been offered the command of the City of London regiment being organized here. Former Mayor C. M. R. Graham, who has charge of the organization, wired the offer to the colonel.

There are Canadians here who fought with Roosevelt in 1898. Several thousand Americans have already joined the Canadian forces and there is a steady influx of recruits from across the line.

Were Col. Roosevelt to accept a command with the Canadian forces there is no doubt that many thousands of his fellow countrymen would follow his example and ask to serve under him. Their enlistment would not affect their American citizenship.

Collier's Second Trial Succeeds.

Boston, Mass.—The naval collier Neptune, which was unsuccessful in the first tests to meet the government stipulations as to speed and fuel economy, completed new trials in which she exceeded contract requirements.

TO PAY INDEMNITY FOR LUSITANIA DEAD

TOTAL OF \$75,000 OR \$5,000 FOR EACH AMERICAN IS INDICATED.

WILL LIKELY REJECT OFFER

Disavowal of Sinking Will Be Left to Arbitrators—British Liability Urged, But U. S. Holds Germany Responsible.

Washington.—Through Count von Bernstorff, Germany has notified the United States of its willingness to pay indemnities for the 115 Americans who lost their lives when the Lusitania was sunk by a German submarine.

Although no amount has yet been proposed, it is stated the German government stands ready to pay \$5,000 for each American who died on the great liner, or a total of \$575,000. It is doubted if this offer will be acceptable to the United States.

Germany has not yet shown any inclination to disavow the act of the submarine commander who destroyed the Lusitania. It has been suggested, however, that the question of disavowal be submitted to arbitration. This proposal President Wilson undoubtedly will reject.

The offer to make financial reparation for the Americans killed on the Lusitania was made to Secretary of State Lansing by Ambassador Bernstorff when the German diplomat called at the state department last week.

At the same time he is said to have informed Mr. Lansing that his government did not think it should be pressed to apologize for sinking a British ship transporting munitions of war along with passengers.

An effort was made by a German emissary recently to get a father and mother who lost a son on the Lusitania to sign a statement that they believed Great Britain equally liable with Germany for the payment of damages.

The agreement presented by this agent was that England incurred this liability when it allowed war munitions to be carried on a British passenger ship.

The plan failed when the parents curtly spurned the suggestion, although they are said to have been promised immediate payment of any amount they would stipulate.

The German embassy officials deny this agent represented the Berlin government.

The United States has held Germany solely responsible for the loss of the Lusitania and throughout the exchange of notes has insisted Germany disregard international law when it torpedoed the ship without warning.

BUSINESS IN CANADA IS GOOD

Successful Crops and Big Yields Help the Railway.

The remarkable fields that are reported of the wheat crop of Western Canada for 1915 bear out the estimate of an average yield over the three western provinces of upward of 25 bushels per acre. There is no portion of that great west of 24,000 square miles in which the crop was not good and the yields abundant. An American farmer who was induced to place under cultivation land that he had been holding for five years for speculative purposes and higher prices, says that he made the price of the land out of this year's crop of oats. No doubt, others, too, who took the advice of the Department of the Interior to cultivate the unoccupied land, have done as well.

But the story of the great crop that Manitoba, Saskatchewan and Alberta produced this year is best told in the language of the railways in the added cars that it has been necessary to place in commission, the extra trains required to be run, the increased tonnage of the grain steamers.

It is found that railway earnings continue to improve.

The C. P. R. earnings for the second week of October showed an increase of \$762,000 over last year, the total being only \$310,000 below the gross earnings of the corresponding week of 1913, when the Western wheat crop made a new record for that date. The increase in C. P. R. earnings for the corresponding week of that year was only \$351,000, or less than half of the increase reported this year. The grain movement in the West within the past two weeks has taxed the resources of the Canadian roads as never before, despite their increased facilities. The C. P. R. is handling 2,000 cars per day, a new record. The G. T. R. and the C. N. R. are also making new shipment records. The other day the W. Grant Morden, of the Canada Steamships Company, the largest freighter of the Canadian fleet on the Upper Lakes, brought down a cargo of 476,315 bushels, a new record for Canadian shipping. Records are "going by the board" in all directions this fall, due to Canada's record crop. The largest Canadian wheat movement through the port of New York ever known is reported for the period up to October 15th, when since shipments of the new crop began in August, 4,265,791 bushels have been reloaded for England, France and Italy. This is over half as much as was shipped of American wheat from the same port in the same period. And, be it remembered, Montreal, not New York, is the main export gateway for Canadian wheat. New York gets the overflow in competition with Montreal.—Advertisement.

All Very Tragic.

At the Players' club in New York the happy ending so essential to a play's financial success was being discussed, when Butler Glauzier said: "No play has a happy ending."

They looked at him through the cigarette smoke in amazement.

"No play has a happy ending," he repeated. "It runs on and on, and at last it ends tragically in some one-horse town, with the entire road company stranded and without the price of an oyster stew among the lot of them."
